

EXOCET – THERMO REACTIVE GRANULES

Identification

Blended Product

Composition

Contains Sodium Hydroxide.

Hazards Identification

Product is corrosive and can cause severe burns.

First Aid Measures

- EYES – Flush with copious amounts of water and seek medical advice.
- SKIN – Remove any contaminated clothing. Wash affected areas with plenty of soap and water. If irritation occurs and persists then seek medical advice.
- INHALATION – Move affected person to fresh air. Keep patient warm and at rest. Obtain medical attention.
- INGESTION – Drink plenty of water or milk. Do not induce vomiting. In the unlikely event of accidental ingestion seek medical aid immediately. Do not give anything by mouth to an unconscious person.

Fire Hazard and Fire Fighting Procedures

Non Flammable

Accidental Release Measures

Wear suitable clothing including gloves and goggles. For small spillages of less than 1 kilo, wash down foul water sewer with plenty of water. For larger spills – sweep up spillage and place in suitable container for disposal. Keep product out of water courses, drainage channels, ponds, rivers, etc.

Handling and Storage

Store containers in a cool dry area. Do not store near other chemicals especially acids or acidic products.

Exposure Controls and Personal Protection

- RESPIRATORY PROTECTION – Use suitable protective equipment in case of insufficient ventilation.
- VENTILATION – Use with adequate ventilation.

- PROTECTIVE GLOVES – Wear chemical resistant gloves (PVC/Rubber).
- EYE PROTECTION – Wear goggles.

Physical and Chemical Properties

- PHYSICAL STATE – Fine Granules
- COLOUR – Yellow
- ODOUR – Lemon
- FLASH POINT – Non Flammable
- SOLUBILITY – Soluble in water and alcohol.
- SPECIFIC GRAVITY at 25C: 1.1

Stability and Reactivity Data

- CHEMICAL REACTIVITY – None
- STORAGE STABILITY – Stable
- INCOMPATIBILITY – Acids and acidic products.
- HAZARDOUS DECOMPOSITION AND COMBUSTION PRODUCTS – None

Toxicology Information

- EYES – Can cause severe burns and irritation.
- SKIN – Can cause severe burns, irritation, and reddening of the skin.
- INHALATION – Irritation, coughing and burning of the airways and throat.
- INGESTION – Burns to throat, tongue and stomach, stomach pains, sickness and throat irritation.

Ecological Information

The high pH of this product is toxic to aquatic organisms. Keep the product out of rivers, ponds, streams, etc.

Disposal Considerations

As per current rules of local authority.

Regulatory Information

Corrosive
CHIP C.O.S.H.H.

Transport Information

Not known
